3. **Stock selection process** - Stocks are selected based on strong fundamentals and a proven corporate track record, prioritizing consistent growth in revenue, profits, and market performance.

The portfolio manager's primary focus is identifying high-potential stocks through rigorous financial evaluation. We perform in-depth analysis of a company's quarterly and annual financial statements, including the profit and loss (P&L) and cash flow statements. Our key focus is on evaluating cash generation and utilization—whether the company uses its profits to reduce debt, invest in R&D, fund capital expenditures (capex), or pay dividends.

**Balance Sheet Analysis:**

We assess key balance sheet metrics, including total assets, liabilities, working capital, inventory, debtors, creditors, and outstanding balances. A holistic review of the company's financial health helps us ensure that the company's fundamentals are robust.

**Peer Comparison & Market Positioning:**

We compare the company's performance with its industry peers to assess differentiation, competitive positioning, and growth prospects. This includes analysing market trends, sector performance, and macroeconomic factors that provide broader context.

**Focus on Fundamentally Strong Stocks**

Our primary focus is on companies with:

- Strong growth potential
- Sound financial health
- Attractive valuations

**Tools & Data Sources**

We employ **Screener (premium version)** for detailed financial analysis, utilizing metrics such as PE ratio, PS ratio, EBITDA, PAT, EPS, and revenue and profit growth trends. We also analyse compound annual growth rates (CAGR) for revenue, profits, and stock price.

**Real-Time Monitoring:**

- **News & Announcements:** We track official updates from platforms like BSE and stay up-to-date with stock-related news through X (formerly Twitter).

# N M R

CAPITAL ADVISORS LLP

LLP No.: ACI- 6002

- **Financial Publications:** Subscribed publications include **The Economic Times, Business Standard, Mint, Financial Express**, and others, which provide in-depth market insights.

#### **Management Insight & Corporate Governance:**

We prioritize attending earnings calls to gather insights from management on performance, guidance, and strategic direction. We monitor executive interviews, analyse the promoter's buying and selling patterns, and evaluate the company's track record in corporate governance.

#### **Research Coverage & Data Sources**

Our comprehensive research extends to:

- **Annual Reports:** Reviewing the last five years for consistency
  - **Quarterly Results:** Evaluating the last four quarters
  - **Management Presentations:** Understanding strategic initiatives
  - **Shareholding Pattern Analysis:** Analysing shifts in ownership
  - **Sector Blogs & Reports:** Leveraging platforms like Moneycontrol, Economic Times (ET), and Bloomberg Quint (BQ) for external perspectives
  - **Credit Rating Reports:** Examining debt health and financial standing
4. **Portfolio allocation** – Our approach is sector-agnostic, and we aim to build a diversified portfolio of **10+ stocks** across different sectors and market caps. We'll employ a **Small-midcap strategy** that is flexible with allocations based on market opportunities.
  5. **Benchmark** – The Benchmark will be **S&P BSE 500 TRI** to evaluate the portfolio's performance.
  6. **Risks associated with investment approach** - Please refer to clause 6 "Risk Factors" of this document.
  7. **Risk Management** - Our risk management focuses on avoiding companies with:
    - Negative cash flow from operations
    - Heavy debt or high debt-to-equity (DE) ratio

We typically invest in companies with a market capitalization of ₹500 crore or more and sales of ₹200 crore or above. Additionally, the portfolio manager limits exposure to a single security at 15% of the portfolio, ensuring protection against concentration risk

The policies for investments in associates/group companies of the portfolio manager and the maximum percentage of such investments therein subject to the applicable laws/regulations/ guidelines

**The Portfolio Manager does not have any associates and group companies.**

**6. Risk factors**

**A. General Risks Factors**

Securities investments are subject to market risk and there is no assurance or guarantee that the objectives of the Services will be achieved.

Past performance of the portfolio manager does not indicate its future performance.

Investment decisions made by the Portfolio Manager may not always be profitable. The Portfolio Manager does not offer any guarantee / assured returns.

Prospective Clients should review / study this Disclosure Document carefully and in its entirety and shall not construe the contents hereof or regard the summaries contained herein as advice relating to legal, taxation, or financial / investment matters and are advised to consult their own professional advisor(s) as to the legal, tax, financial or any other requirements or restrictions relating to the subscription, gifting, acquisition, holding, disposal (sale or conversion into money) of the Portfolio and to the treatment of income (if any), capitalization, capital gains, any distribution, and other tax consequences relevant to their Portfolio before authorizing the Portfolio Manager to make an investment on their behalf.

The investments made are subject to external risks such as war, natural calamities, and policy changes of local / international markets which affect stock markets.

The Portfolio Manager is neither responsible nor liable for any losses resulting from the operations of the Portfolios.

After accepting the corpus for management, the Portfolio Manager may not get an opportunity to deploy the same or there may be delay in deployment. In such situations the Clients may suffer opportunity loss.

**B. Risk associated with equity and equity related instruments**

1. Equity and equity related instruments by nature are volatile and prone to price fluctuations on a daily basis due to macro and micro economic factors. The value of equity and equity related instruments may fluctuate due to factors affecting the securities markets such as volume and volatility in the capital markets, interest rates, currency exchange rates, changes in law/policies of the government, taxation laws, political, economic or other developments, which may have an adverse impact on individual Securities, a specific sector or all sectors. Consequently, the value of the Client's Portfolio may be adversely affected.
2. Equity and equity related instruments listed on the stock exchange carry lower liquidity risk, however the Portfolio Manager's ability to sell these investments is limited by the overall trading volume on the stock exchanges. In certain cases,

# N M R

CAPITAL ADVISORS LLP

LLP No.: ACI-6002

settlement periods may be extended significantly by unforeseen circumstances. The inability of the Portfolio Manager to make intended Securities purchases due to settlement problems could cause the Client to miss certain investment opportunities. Similarly, the inability to sell Securities held in the Portfolio may result, at times, in potential losses to the Portfolio, should there be a subsequent decline in the value of Securities held in the Client's Portfolio.

3. Risk may also arise due to an inherent nature/risk in the stock markets such as, volatility, market scams, circular trading, price rigging, liquidity changes, de-listing of Securities or market closure, relatively small number of scrip's accounting for a large proportion of trading volume among others.

**C. Risk associated with debt and money market securities**

**4. Interest Rate Risk**

Fixed income and money market Securities run interest-rate risk. Generally, when interest rates rise, prices of existing fixed income Securities fall and when interest rate falls, the prices increase. In case of floating rate Securities, an additional risk could arise because of the changes in the spreads of floating rate Securities. With the increase in the spread of floating rate Securities, the price can fall and with decrease in spread of floating rate

**5. Liquidity or Marketability Risk**

The ability of the Portfolio Manager to execute sale/purchase order is dependent on the liquidity or marketability. The primary measure of liquidity risk is the spread between the bid price and the offer price quoted by a dealer. The Securities that are listed on the stock exchange carry lower liquidity risk, but the ability to sell these Securities is limited by the overall trading volumes. Further, different segments of Indian financial markets have different settlement cycles and may be extended significantly by unforeseen circumstances

**6. Credit Risk**

Credit risk or default risk refers to the risk that an issuer of a fixed income security may default (i.e., will be unable to make timely principal and interest payments on the security). Because of this risk corporate debentures are sold at a higher yield above those offered on government Securities which are sovereign obligations and free of credit risk. Normally, the value of a fixed income security will fluctuate depending upon the changes in the perceived level of credit risk as well as any actual event of default. The greater the credit risk, the greater the yield required for someone to be compensated for the increased risk.

7. Reinvestment Risk

This refers to the interest rate risk at which the intermediate cash flows received from the Securities in the Portfolio including maturity proceeds are reinvested. Investments in fixed income Securities may carry re-investment risk as interest rates prevailing on the interest or maturity due dates may differ from the original coupon of the debt security. Consequently, the proceeds may get invested at a lower rate.

**D. Risk associated with derivatives instruments**

8. The use of derivative requires an understanding not only of the underlying instrument but of the derivative itself. Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the Portfolio Manager to identify such opportunities. Identification and execution of the strategies to be pursued by the Portfolio Manager involve uncertainty and decision of Portfolio Manager may not always be profitable. No assurance can be given that the Portfolio Manager will be able to identify or execute such strategies
9. Derivative products are specialized instruments that require investment techniques and risk analysis different from those associated with stocks and bonds. Derivatives require the maintenance of adequate controls to monitor the transactions entered into, the ability to assess the risk that a derivative adds to the portfolio and the ability to forecast price of interest rate movements correctly. The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments. Other risks include settlement risk, risk of mispricing or improper valuation and the inability of the derivative to correlate perfectly with underlying assets, rates and indices, illiquidity risk whereby the Portfolio Manager may not be able to sell or purchase derivative quickly enough at a fair price

**E. Risk associated with investments in mutual fund schemes**

10. Mutual funds and securities investments are subject to market risks and there is no assurance or guarantee that the objectives of the schemes will be achieved. The various factors which impact the value of the scheme's investments include, but are not limited to, fluctuations in markets, interest rates, prevailing political and economic environment, changes in government policy, tax laws in various countries, liquidity of the underlying instruments, settlement periods, trading volumes, etc.

11. As with any securities investment, the NAV of the units issued under the schemes can go up or down, depending on the factors and forces affecting the capital markets.
12. Past performance of the sponsors, asset management company (AMC)/fund does not indicate the future performance of the schemes of the fund.
13. The Portfolio Manager shall not be responsible for liquidity of the scheme's investments which at times, be restricted by trading volumes and settlement periods. The time taken by the scheme for redemption of units may be significant in the event of an inordinately large number of redemption requests or of a restructuring of the schemes
14. The Portfolio Manager shall not responsible, if the AMC/ fund does not comply with the provisions of SEBI (Mutual Funds) Regulations, 1996 or any other circular or acts as amended from time to time. The Portfolio Manager shall also not be liable for any changes in the offer document (s) scheme information document (s) of the scheme (s) which may vary substantially depending on the market risk general economic and political condition in India and other countries globally the monetary and interest policies, inflation deflation unanticipated turbulence in interest rates foreign exchange rates equity prices of other rates or prices the performance of the financial markets in India and globally
15. The Portfolio Manager shall not be liable for any default, negligence, lapse error or fraud on the part of the AMC/the fund
16. While it would be the endeavor of the Portfolio Manager to invest in the schemes in a manner, which will seek to maximize returns, the performance of the underlying schemes may vary which may lead to the returns of this portfolio being adversely impacted
17. The scheme specific risk factors of each of the underlying schemes become applicable where the Portfolio Manager invests in any underlying scheme. Investors who intend to invest in this portfolio are required to and are deemed to have read and understood the risk factors of the underlying schemes

**F. Risk arising out of Non-diversification**

18. The investment according to investment objective of a Portfolio may result in concentration of investments in a specific security / sector/ issuer, which may expose the Portfolio to risk arising out of non-diversification. Further, the portfolio with investment objective to invest in a specific sector / industry would be exposed to risk associated with such sector / industry and its performance will be dependent on performance of such sector / industry. Similarly, the portfolios with investment

objective to have larger exposure to certain market capitalization buckets, would be exposed to risk associated with underperformance of those relevant market capitalization buckets. Moreover, from the style orientation perspective, concentrated exposure to value or growth stocks based on the requirement of the mandate/strategy may also result in risk associated with this factor

**G. Risk arising out of investment in Associate and Related Party transactions**

19. All transactions of purchase and sale of securities by portfolio manager and its employees who are directly involved in investment operations shall be disclosed if found having conflict of interest with the transactions in any of the client's portfolio.

The Portfolio Manager may utilize the services of its group companies or associates for managing the portfolios of the client. In such scenarios, the Portfolio Manager shall endeavor to mitigate any potential conflict of interest that could arise while dealing with such group companies/associates by ensuring that such dealings are at arm's length basis.

20. The Portfolios may invest in its Associates/ Related Parties relating to portfolio management services and thus conflict of interest may arise while investing in securities of the Associates/Related Parties of the Portfolio Manager. Portfolio Manager shall ensure that such transactions shall be purely on arms' length basis and to the extent and limits permitted under the Regulations. Accordingly, all market risk and investment risk as applicable to securities may also be applicable while investing in securities of the Associates/Related Parties of the Portfolio Manager.

**7. Nature of expenses**

## 8. Taxation

### A. General

The following information is based on the tax laws in force in India as of the date of this Disclosure Document and reflects the Portfolio Manager's understanding of applicable provisions. The tax implications for each Client may vary significantly based on residential status and individual circumstances. **As the information provided is generic in nature, Clients are advised to seek guidance from their own tax advisors or consultants regarding the tax treatment of their income, losses, and expenses related to investments in the portfolio management services. The Client is responsible for meeting advance tax obligations as per applicable laws**

### B. Tax deducted at source

In the case of resident clients, the income arising by way of dividend, interest on securities, income from units of mutual fund, etc. from investments made in India are subject to the provisions of tax deduction at source (TDS). Residents without Permanent Account Number (PAN) are subjected to a higher rate of TDS

In the case of non-residents, any income received or accrues or arises; or deemed to be received or accrue or arise to him in India is subject to the provisions of tax deduction at source under the IT Act. The authorized dealer is obliged and responsible to make sure that all such relevant compliances are made while making any payment or remittances from India to such non-residents. Also, if any tax is required to be withheld on account of any future legislation, the Portfolio Manager shall be obliged to act in accordance with the regulatory requirements in this regard. Non-residents without PAN or tax residency certificate (TRC) of the country of his residence are currently subjected to a higher rate of TDS.

The Finance Act, 2021 introduced a special provision to levy higher rate for TDS for the residents who are not filing income-tax return in time for previous two years and aggregate of TDS is INR 50,000 or more in each of these two previous years. This provision of higher TDS is not applicable to a non-resident who does not have a permanent establishment in India and to a resident who is not required to furnish the return of income.

### C. Long term capital gains

- **For listed equity shares in a domestic company or units of equity oriented fund or business trust**

The Finance Act 2018 changed the method of taxation of long-term capital gains from transfer of listed equity shares and units of equity oriented fund or business trust.

As per section 112A of the IT Act, long term capital gains exceeding INR 1 lakh arising on transfer of listed equity shares in a company or units of equity oriented fund or units of a business trust is taxable at 10%, provided such transfer is chargeable to STT. This exemption limit has been increased from INR 1 lakh to INR 1.25 lakh and tax rate has been increased from 10% to 12.5% with effect from 23 July 2024. Further, to avail such concessional rate of tax, STT should also have been paid on acquisition of listed equity shares, unless the listed equity shares have been acquired through any of the notified modes not requiring to fulfil the pre-condition of chargeability to STT.

Long term capital gains arising on transaction undertaken on a recognized stock exchange located in any International Financial Services Centre and consideration is paid or payable in foreign currency, where STT is not chargeable, is also taxed at a rate of 10%. This benefit is available to all assesseees. This tax rate is increased from 10% to 12.5%.

The long term capital gains arising from the transfer of such Securities shall be calculated without indexation. In computing long term capital gains, the cost of acquisition (COA) is an item of deduction from the sale consideration of the shares. To provide relief on gains already accrued upto 31 January 2018, a mechanism has been provided to "step up" the COA of Securities. Under this mechanism, COA is substituted with FMV, where sale consideration is higher than the FMV. Where sale value is higher than the COA but not higher than the FMV, the sale value is deemed as the COA.

Specifically in case of long term capital gains arising on sale of shares or units acquired originally as unlisted shares/units upto 31 January 2018, COA is substituted with the "indexed COA" (instead of FMV) where sale consideration is higher than the indexed COA. Where sale value is higher than the COA but not higher than the indexed COA, the sale value is deemed as the COA. This benefit is available only in the case where the shares or units, not listed on a recognised stock exchange as on

the 31 January 2018, or which became the property of the assessee in consideration of share which is not listed on such exchange as on the 31 January 2018 by way of transaction not regarded as transfer under section 47 (e.g. amalgamation, demerger), but listed on such exchange subsequent to the date of transfer, where such transfer is in respect of sale of unlisted equity shares under an offer for sale to the public included in an initial public offer.

The CBDT has clarified that 10% withholding tax will be applicable only on dividend income distributed by mutual funds and not on gain arising out of redemption of units.

No deduction under Chapter VI-A or rebated under Section 87A will be allowed from the above long term capital gains.

- **For other capital assets (securities and units) in the hands of resident of India**

Long-term capital gains in respect of capital asset (all securities and units other than listed shares and units of equity oriented mutual funds and business trust) is chargeable to tax at the rate of 20% plus applicable surcharge and education cess, as applicable. The capital gains are computed after taking into account cost of acquisition as adjusted by cost inflation index notified by the Central Government and expenditure incurred wholly and exclusively in connection with such transfer. This tax rate is reduced from 20% to 12.5%; but no indexation benefit will be available with effect from 23 July 2024.

As per Finance Act, 2017, the base year for indexation purpose has been shifted from 1981 to 2001 to calculate the cost of acquisition or to take Fair Market Value of the asset as on that date. Further, it provides that cost of acquisition of an asset acquired before 1 April 2001 shall be allowed to be taken as Fair Market Value as on 1 April 2001.

- **For capital assets in the hands of Foreign Portfolio Investors (FPIs)**

Long term capital gains, arising on sale of debt Securities, debt oriented units (other than units purchased in foreign currency and capital gains arising from transfer of such units by offshore funds referred to in section 115AB) are taxable at the rate of 10% under Section 115AD of the IT Act. This tax rate has been increased from 10% to 12.5% with effect from 23 July 2024. Such gains would be calculated without considering benefit of (i) indexation for the COA and (ii) determination for capital gain/loss in foreign currency and reconversion of such gain/loss into the Indian currency.

Long term capital gains, arising on sale of listed shares in the company or units of equity oriented funds or units of business trust and subject to conditions relating to payment of STT, are taxable at 10% as mentioned in para 12.10.2 above. This tax rate has been increased from 10% to 12.5% with effect from 23 July 2024.

• **For other capital asset in the hands of non-resident Indians**

Under section 115E of the IT Act, any income from investment or income from long-term capital gains of an asset other than specified asset as defined in Section 115C (specified assets include shares of Indian company, debentures and deposits in an Indian company which is not a private company and Securities issued by Central Government or such other Securities as notified by Central Government) is chargeable at the rate of 20%. Income by way long-term capital gains of the specified asset is, however, chargeable at the rate of 10% plus applicable surcharge and cess (without benefit of indexation and foreign currency fluctuation). This tax rate has been increased from 10% to 12.5% with effect from 23 July 2024.

**D. Short term capital gains**

Section 111A of the IT Act provides that short-term capital gains arising on sale of listed equity shares of a company or units of equity oriented fund or units of a business trust are chargeable to income tax at a concessional rate of 15% plus applicable surcharge and cess, provided such transactions are entered on a recognized stock exchange and are chargeable to Securities Transaction Tax (STT). This tax rate has been increased from 15% to 20% with effect from 23 July 2024. However, the above shall not be applicable to transaction undertaken on a recognized stock exchange located in any International Financial Services Centre and where the consideration for such transaction is paid or payable in foreign currency. Further, Section 48 provides that no deduction shall be allowed in respect of STT paid for the purpose of computing Capital Gains.

Short term capital gains in respect of other capital assets (other than listed equity shares of a company or units of equity oriented fund or units of a business trust) are chargeable to tax as per the relevant slab rates or fixed rate, as the case may be.

The Specified Mutual Funds or Market Linked Debentures acquired on or after 1 April 2023 will be treated as short term capital asset irrespective of period of holding as per Section 50AA of the IT Act. The unlisted bonds and unlisted debentures have been brought within the ambit of Section 50AA of the IT Act with effect from 23 July 2024

**E. Profits and gains of business or profession**

If the Securities under the portfolio management services are regarded as business/trading asset, then any gain/loss arising from sale of such Securities would be taxed under the head "Profits and Gains of Business or Profession" under section 28 of the IT Act. The gain/ loss is to be computed under the head "Profits and Gains of Business or Profession" after allowing normal business expenses (inclusive of the expenses incurred on transfer) according to the provisions of the IT Act.

Interest income arising on Securities could be characterized as 'Income from other sources' or 'business income' depending on facts of the case. Any expenses incurred to earn such interest income should be available as deduction, subject to the provisions of the IT Act

#### **F. Losses under the head capital gains/business income**

In terms of section 70 read with section 74 of the IT Act, short term capital loss arising during a year can be set-off against short term as well as long term capital gains. Balance loss, if any, shall be carried forward and set-off against any capital gains arising during the subsequent 8 assessment years. A long-term capital loss arising during a year is allowed to be set-off only against long term capital gains. Balance loss, if any, shall be carried forward and set-off against long term capital gains arising during the subsequent 8 assessment years.

Business loss is allowed to be carried forward for 8 assessment years and the same can be set off against any business income.

#### **G. General Anti Avoidance Rules (GAAR)**

GAAR may be invoked by the Indian income-tax authorities in case arrangements are found to be impermissible avoidance arrangements. A transaction can be declared as an impermissible avoidance arrangement, if the main purpose of the arrangement is to obtain a tax benefit and which satisfies one of the 4 (four) below mentioned tainted elements:

- The arrangement creates rights or obligations which are ordinarily not created between parties dealing at arm's length
- It results in directly / indirectly misuse or abuse of the IT Act;
- It lacks commercial substance or is deemed to lack commercial substance in whole or in part; or
- It is entered into, or carried out, by means, or in a manner, which is not normally employed for bona fide purposes

In such cases, the tax authorities are empowered to reallocate the income from such arrangement, or recharacterize or disregard the arrangement. Some of the illustrative powers are:

- Disregarding or combining or recharacterising any step in, or a part or whole of the arrangement;
- Ignoring the arrangement for the purpose of taxation law;
- Relocating place of residence of a party, or location of a transaction or situation of an asset to a place other than provided in the arrangement
- Looking through the arrangement by disregarding any corporate structure; or
- Recharacterising equity into debt, capital into revenue, etc.

The GAAR provisions would override the provisions of a treaty in cases where GAAR is invoked. The necessary procedures for application of GAAR and conditions under which it should not apply, have been enumerated in Rules 10U to 10UC of the Income-tax Rules, 1962. The Income-tax Rules, 1962 provide that GAAR should not be invoked unless the tax benefit in the relevant year does not exceed INR 3 crores

On 27 January 2017, the CBDT has issued clarifications on implementation of GAAR provisions in response to various queries received from the stakeholders and industry associations. Some of the important clarifications issued are as under

- Where tax avoidance is sufficiently addressed by the Limitation of Benefit Clause (LOB) in a tax treaty, GAAR should not be invoked.
- GAAR should not be invoked merely on the ground that the entity is located in a tax efficient jurisdiction
- GAAR is with respect to an arrangement or part of the arrangement and limit of INR 3 crores cannot be read in respect of a single taxpayer only.

#### **H. FATCA Guidelines**

According to the Inter-Governmental Agreement read with the Foreign Account Tax Compliance Act (FATCA) provisions and the Common Reporting Standards (CRS), foreign financial institutions in India are required to report tax information about US account holders and other account holders to the Indian Government. The Indian Government has enacted rules relating to FATCA and CRS reporting in India. A statement is required to be provided online in Form 61B for every calendar year by

31 May. The reporting financial institution is expected to maintain and report the following information with respect to each reportable account

- (a) the name, address, taxpayer identification number and date and place of birth;
- (b) where an entity has one or more controlling persons that are reportable persons:
  - (i) the name and address of the entity, TIN assigned to the entity by the country of its residence; and
  - (ii) the name, address, date of birth, place of birth of each such controlling person and TIN assigned to such controlling person by the country of his residence.
- (c) account number (or functional equivalent in the absence of an account number);
- (d) account balance or value (including, in the case of a cash value insurance contract or annuity contract, the cash value or surrender value) at the end of the relevant calendar year; and
- (e) the total gross amount paid or credited to the account holder with respect to the account during the relevant calendar year

Further, it also provides for specific guidelines for conducting due diligence of reportable accounts, viz. US reportable accounts and other reportable accounts (i.e. under CRS).

**I. Goods and Services Tax on services provided by the portfolio manager**

Goods and Services Tax (GST) will be applicable on services provided by the Portfolio Manager to its Clients. Accordingly, GST at the rate of 18% would be levied on fees if any, payable towards portfolio management fee

## **9. Accounting policies**

Following accounting policies are followed for the portfolio investments of the Client:

### **A. Client Accounting**

- (1) The Portfolio Manager shall maintain a separate Portfolio record in the name of the Client in its book for accounting the assets of the Client and any receipt, income in connection therewith as provided under Regulations. Proper books of accounts, records, and documents shall be maintained to explain transactions and disclose the financial position of the Client's Portfolio at any time.
- (2) The books of account of the Client shall be maintained on an historical cost basis.
- (3) Transactions for purchase or sale of investments shall be recognised as of the trade date and not as of the settlement date, so that the effect of all investments traded during a Financial Year are recorded and reflected in the financial statements for that year
- (4) All expenses will be accounted on due or payment basis, whichever is earlier.
- (5) The cost of investments acquired or purchased shall include brokerage, stamp charges and any charges customarily included in the broker's contract note. In respect of privately placed debt instruments any front-end discount offered shall be reduced from the cost of the investment. Sales are accounted based on proceeds net of brokerage, stamp duty, transaction charges and exit loads in case of units of mutual fund. Securities transaction tax, demat charges and Custodian fees on purchase/ sale transaction would be accounted as expense on receipt of bills. Transaction fees on unsettled trades are accounted for as and when debited by the Custodian.
- (6) Tax deducted at source (TDS) shall be considered as withdrawal of portfolio and debited accordingly

### **B. Recognition of portfolio investments and accrual of income**

- (7) In determining the holding cost of investments and the gains or loss on sale of investments, the "first in first out" (FIFO) method will be followed.
- (8) Unrealized gains/losses are the differences, between the current market value/NAV and the historical cost of the Securities. For derivatives and futures and options, unrealized gains and losses will be calculated by marking to market the open positions.
- (9) Dividend on equity shares and interest on debt instruments shall be accounted on accrual basis. Further, mutual fund dividend shall be accounted on receipt basis.

- (10) Bonus shares/units to which the security/scrip in the portfolio becomes entitled will be recognized only when the original share/scrip on which bonus entitlement accrues are traded on the stock exchange on an ex-bonus basis.
- (11) Similarly, right entitlements will be recognized only when the original shares/security on which the right entitlement accrues is traded on the stock exchange on the ex-right basis.
- (12) In respect of all interest-bearing Securities, income shall be accrued on a day-to-day basis as it is earned.
- (13) Where investment transactions take place outside the stock exchange, for example, acquisitions through private placement or purchases or sales through private treaty, the transactions shall be recorded, in the event of a purchase, as of the date on which the scheme obtains an enforceable obligation to pay the price or, in the event of a sale, when the scheme obtains an enforceable right to collect the proceeds of sale or an enforceable obligation to deliver the instruments sold.

#### **C. Valuation of portfolio investments**

- (14) Investments in listed equity shall be valued at the last quoted closing price on the stock exchange. When the Securities are traded on more than one recognised stock exchange, the Securities shall be valued at the last quoted closing price on the stock exchange where the security is principally traded. It would be left to the portfolio manager to select the appropriate stock exchange, but the reasons for the selection should be recorded in writing. There should, however, be no objection for all scrips being valued at the prices quoted on the stock exchange where a majority in value of the investments are principally traded. When on a particular valuation day, a security has not been traded on the selected stock exchange, the value at which it is traded on another stock exchange may be used. When a security is not traded on any stock exchange on a particular valuation day, the value at which it was traded on the selected stock exchange or any other stock exchange, as the case may be, on the earliest previous day may be used provided such date is not more than thirty days prior to the valuation date.
- (15) Investments in units of a mutual fund are valued at NAV of the relevant scheme. Provided investments in mutual funds shall be through direct plans only.
- (16) Debt Securities and money market Securities shall be valued as per the prices given by third party valuation agencies or in accordance with guidelines prescribed by Association of Portfolio Managers in India (APMI) from time to time.

<https://scores.gov.in/scores/Welcome.html>) for easy retrieval and tracking of complaints.

- a) The entity will receive the complaints through SCORES and such complaints shall be resolved on a best effort basis within a period of 21 days from the receipt of such complaint. Such a complaint will also be forwarded simultaneously to Association of Portfolio Managers of India (APMI) and APMI shall ensure that an Action Taken Report (ATR) is submitted within 21 days.
- b) If the complainant is not satisfied with the action taken by the entity he shall request the review of the complaint within 15 days of ATR. APMI shall then take cognizance of such a complaint and it may seek clarification on the ATR submitted by the entity. The entity shall then provide required clarification on the ATR and APMI shall then forward a revised ATR within 10 calendar days to the complainant through SCORES.
- c) The complainant may seek second review of the ATR provided by APMI within 15 calendar days from the date of submission of ATR by APMI. If the complainant is satisfied with the action taken by APMI, the complaint shall be disposed off on SCORES.
- d) In case the complainant is not satisfied with the ATR provided by APMI, Securities and Exchange Board of India (SEBI) shall take cognizance of second review of the complaint through SCORES.
- e) SEBI may take up review with the stakeholders, with APMI and / or with the entity. APMI or the entity should then take immediate action on receipt of a second review of the complaint and a revised ATR shall be submitted to SEBI within the timeline specified by SEBI.
- f) SEBI or APMI can then seek clarification on the ATR submitted by the entity for SEBI review complaint. The entity should provide required clarification wherever sought and within such a timeline as specified.
- g) The second review complaint shall be treated as 'resolved' 'disposed' or 'closed' only when SEBI 'disposes' or 'closes' the complaint in SCORES. Hence, mere filing of ATR with respect to SEBI review complaint will not mean that SEBI review complaint is disposed of.

**B) Arbitration and Conciliation:**

In the event of failure to settle the dispute by mutual negotiations, it may be resolved by arbitration in accordance with provisions of The Arbitration and Conciliation Act, 1996, or any statutory modification or re-enactment thereof for the time being in force. Such Arbitration proceedings shall be held at Mumbai, Maharashtra and the language of Arbitration will be English. The cost of arbitration will be borne as decided by the arbitrator(s). The award of the arbitrator will be final and binding on the parties. Furthermore, Clients can also submit their complaints on The Securities Market Approach for Resolution through Online Dispute Resolution (ODR) Portal for online arbitration and online conciliation for resolution of complaints. The portal can be accessed at <https://smartodr.in/login>.

3. This Disclosure Document and the Agreement shall be governed and construed in accordance with the laws of India and shall be subject to the exclusive jurisdiction of the courts at Mumbai, Maharashtra.
